

**May 8th, 1999**

With this I would like to make public some good news.  
The event this summer, July 17-19, is for sure going to take place.

I hope to see you all, and I will give you more details within short time.

Only those having an e-mail-address are receiving this message, of course, so please help me making our non-wired friends familiar with these good news. It will take a little time, until snail-mails are sent.

Best wishes  
John
